

CERTIFICATE of approval

No. 023/220414

BENCOMP

wood plastic composite

Bencomp qualifies as an Approved Green Homes Solution Provider under GREEN HOMES residential certification system with the following product category: **Wood Plastic Composite profiles for deck, fences, cladding and urban furniture**. The products comply with the requirements of the certification and contribute to the following criteria:

E3 Local/Regional Materials
H1 Innovation

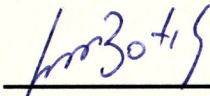

E4 Recycled Content
E5 Environmentally responsible sources

They are approved and recommended for the residential projects that pursue the GREEN HOMES certification by the Romania Green Building Council (RoGBC). RoGBC is an independent non-profit association dedicated to promoting sustainable construction, assessing the sustainability performance of materials, products and buildings.
